

**DEPARTMENT OF THE ARMY
U.S. ARMY CORPS OF ENGINEERS
Washington, DC 20314-1000**

EM 1110-2-2105

CECW-ED

Manual
No. 1110-2-2105

31 March 1993

**Engineering and Design
DESIGN OF HYDRAULIC STEEL
STRUCTURES**

Table of Contents

Subject	Paragraph	Page	Subject	Paragraph	Page
Chapter 1					
Introduction					
Purpose	1-1	1-1	Commentary on Paragraph 3-4, Reliability Factors for HSS	3-8	3-2
Applicability	1-2	1-1	Commentary on Paragraph 3-6, Fatigue and Fracture Control	3-9	3-3
References	1-3	1-1			
Background	1-4	1-1			
Commentary on Paragraph 1-4, Background	1-5	1-1			
Chapter 2					
General Considerations					
Limit States	2-1	2-1	Commentary on Paragraph 4-3, Load and Stress Requirements	4-3	4-1
Corrosion	2-2	2-1	HSS Types: Modifications for Allowable Stresses	4-4	4-1
Dynamic Loading	2-3	2-1	Serviceability Requirements	4-5	4-1
Inspection and Maintenance	2-4	2-1	Fatigue and Fracture Control	4-6	4-1
Deviations from Prescribed Design	2-5	2-1	Commentary on Paragraph 4-4, HSS Types: Modifications for Allowable Stresses	4-8	4-2
Commentary on Paragraph 2-2, Corrosion	2-6	2-1			
Commentary on Paragraph 2-3, Dynamic Loading	2-7	2-2			
Chapter 3					
Load and Resistance Factor Design					
General	3-1	3-1	General	5-1	5-1
Design Basis	3-2	3-1	Design Considerations	5-2	5-1
Strength Requirements	3-3	3-1	Bolted Connections	5-3	5-1
Reliability Factors for HSS	3-4	3-1	Welded Connections	5-4	5-1
Serviceability Requirements	3-5	3-1	Commentary on Paragraph 5-1, General	5-5	5-1
Fatigue and Fracture Control	3-6	3-2	Commentary on Paragraph 5-2, Design Considerations	5-6	5-2
Commentary on Paragraph 3-2, Design Basis	3-7	3-2			

31 May 94

Subject	Paragraph	Page	
Commentary on Paragraph 5-3, Bolted Connections	5-7	5-2	Appendix E Bulkheads and Stoplogs
Commentary on Paragraph 5-4, Welded Connections	5-8	5-2	Appendix F Vertical Lift Gates (Lock and Crest)
Appendix A References			Appendix G Hydroelectric and Pumping Plants
Appendix B Load and Resistance Factor Design Criteria for Miter Gates			* Appendix H Flood Closure Structures
Appendix C Tainter Gates			Appendix I Miscellaneous Hydraulic Steel Structures
Appendix D Tainter Valves			

List of Figures

Figure	Page	Figure	Page
B-1. Point load impact for miter gate girders	B-3	B-6. Nomenclature for skin plate design	B-11
B-2. Assumptions for intercostal end connections	B-5	B-7. Sample intercostal section	B-12
B-3. Nomenclature and assumed load area for intercostal design	B-6	B-8. Girder hydrostatic loading and reactions	B-14
B-4. Vertical cross section for example miter gate	B-8	B-9. Sample girder cross section	B-14
B-5. Example miter gate loading	B-9	B-10. Example miter leaf torsion loads	B-19
